Personal Profile

I am passionate about learning by doing where the learned concepts and ideas are reflected on my doings. I love working with a team of multi-disciplinary peoples as well as immerse myself into my individual tasks.

With a positive mind set and good ability to adapt with the environment I would be able to create a sound environment around me. Although I have slightly shy personality, I do not hesitate to take a leap and serve my best output when it comes to my passion.

About Me

Technical Skills: Python, Java, Unix/Linux, MySQL,
